

Low-Priced Business Address With Business Credit Building Assistance

WHO SHOULD PARTICIPATE?

Building business credit is an important part of operating and growing a business. A strong business credit score and profile can provide access to capital obtained under your EIN and increase the value of your company.

A true business "commercial" address improves the credibility of your business and increases your access to capital.

Most banks and lenders do not accept residential or PO Box addresses and shared addresses through virtual offices are now often red-flagged.

Thus, every business should have a unique, business address. We make that affordable and easy.

COST FOR A BUSINESS ADDRESS?

Only \$99.99 monthly provides you a business address and includes optional assistance in building your business credit profile to access up to \$250,000 under your EIN.

The Business Credit Literacy Initiative (BCLI), an established 501(c)(3) non-profit organization since 2016, assists small businesses in accessing capital under its EIN.

The BCLI Low-Priced Business Address resource provides an affordable solution for early stage businesses to meet an important credibility factor to access capital: having a legitimate commercial business address.

Once you enroll and submit your first monthly fee of \$99.99, we'll assign your unique address and then send you a Company Profile Form so we can start the process of building your business credit profile. Anticipate to start receiving business credit within thirty (30) days.

What Is Included?

- A unique business address (not a shared virtual office address).
- Scan and mail service.
- Assistance with building your business credit profile to access up to \$250,000 in business credit.
- **Access two tax-subsidized economic development programs that are only available to small businesses located in our taxing district:**
 - **Chapman Fund.** Up to \$250,000 for fixed assets, new construction, renovations, leased property, equipment, inventory, and working capital.
 - **Workforce Grant.** Funding for you to hire new employees. Grant will pay 100% of prevailing wages and cover all employment taxes.
